Department Finance Deptt & P&DB

PROJECT OBJECTIVE

The objective of the program is to improve collection of own source revenue, management of public resources and disaster risk and use of technology in the delivery of government services in Punjab.

PROGRAM DEVELOPMENT OBJECTIVES

1. Strengthen budget formulation and fiscal risk management
2. Increased use of digital technology for delivery of selected public services
3. Improved collection of OSR (own source revenue)

PROJECT DLIs

1. Reduction in unbudgeted fiscal risks (unfunded pension liability of government of Punjab)
 2. Variance between original budget and actual expenditure composition
 3. Increase in development budget expenditure process through E-procurement
 4. Citizen assessing government services through digital platforms of which 10% are female
 5. Enhanced transparency in local government revenues and expenditure position especially related to disaster risk management and core people's social service
 6. Value of own source text revenue
 7. Database integration in tax administration
- Technical assistance component to support investments in technical infrastructure and capacity building activities.
