
EMERGENCY SERVICE

EMERGENCY SERVICE

VISION

Development of safer communities through an effective system for management and prevention of emergencies such as road traffic accidents, hazardous material incidents, buildings collapse, explosions, fires and disasters.

OBJECTIVES

- Establishment of a system for emergency preparedness, response and prevention
- Development of a safer community through proactive approach towards emergency management, community awareness and training
- To have positive socio-economic impact on the society by reducing disabilities and deaths due to injuries (mostly resulting from road traffic accidents) leading cause of death among young bread-winners

TREND OF ALLOCATION

(Million Rs.)

Year	Original Allocation	Revised Allocation
2005-06	25	176
2006-07	900	934
2007-08	1,804	1,660
2008-09	2,500	1,997
2009-10	2,000	

STRATEGIC INTERVENTIONS

- The Government of Punjab, instead of making haphazard interventions and reinforcing failures, decided to start a pilot project for establishing a model pre-hospital emergency management infrastructure in Lahore. The results of third party evaluation reveal this project to be exemplary in terms of training, quality care, response and professionalism.

- Based on the success of this Rescue 1122 project, its expansion to other districts was approved. The Service is now made operational in 12 major cities of Punjab namely Lahore, Rawalpindi, Faisalabad, Gujranwala, Multan, Bahawalpur, D.G. Khan, Sargodha, Sialkot, R.Y. Khan, Sahiwal and Murree.
- As a result of the establishment of Punjab Emergency Service (Rescue 1122) in all major cities of Punjab, a comprehensive Emergency Management and Disaster Response infrastructure has been established with trained Emergency Medical, Rescue and Fire Services along with Disaster Emergency Response Teams for the first time in Pakistan.
- The sustainability of the Emergency Services Reforms has been ensured through the enactment of Punjab Emergency Service Act, 2006 unanimously passed by the Punjab Assembly which clearly defined the roles, functions and responsibilities of the Rescue 1122 Service thus establishing an effective system for emergency preparedness, response and prevention in Punjab. Furthermore, the Punjab Emergency Council has also been established by the Government for monitoring the management of emergencies, improving coordination amongst concerned departments and recommending appropriate measures for the prevention of emergencies.
- The sustainable Human Resource Development has been ensured through the establishment of Emergency Services Academy of international standards for continuous human resource development.
- The implementation of project for expansion of Rescue 1122 model in the remaining 24 Districts of Punjab is rapidly underway and the Service would be established in all districts by December, 2009.
- The Rescue 1122 Service will be established in the newly established district Chiniot to maintain uniformity in the expansion of the Service.
- A scheme for strengthening the Emergency Service already operational in major cities will be initiated to maintain the efficiency and performance of the Service.
